

Safety Instructions

EAN CODE	3172964139021,38,45,52,69,76
PRODUCT REF.	739413902,3,4,5,6,7

In Use

- Read the safety instructions on the underside of the platform and keep them along with these instructions.
- 150 kg maximum load on the unit.
- Only suitable for single person use.
- Open out the work platform unit until the platform is horizontal.
- Position the work platform alongside your work position by lifting the front of the steps and manoeuvring using the wheels on the rear section.
- On the larger units (5,6, &7treads) extend the outriggers by pulling out from the side of the unit and lowering by lifting the thumb catch and engaging with the ground.
- Climb the lower treads to enable you to open out the side safety rails.
- Continue to climb the steps on to the platform and lock the side safety rails with the levers located on either side.
- Before commencing work turn around on the platform and engage the safety chains ensuring you first have all the tools, fixings and spares you need to progress work.
- Never work by straddling the units always stay inside the platform.
- Before moving or relocating ensure there are no objects or personnel on or around the unit.
- For general moving and transporting the unit always lift the front and utilise the wheels at the rear.
- When not in use always store the unit upright ensuring the rear wheels are disengaged.
